Bookings Essential

Fitness Level: 🍊🍊 (Please note this tour can have strong winds)

Discover the region north of Amsterdam by bike and visit local villages such as Durgerdam, Marken and Broek en Waterland. You will begin by cycling through the center and alongside the harbour to the east docklands, experiencing a mix of Amsterdam's old and modern architecture.

You will continue through to the Amsterdam's port where we will then follow the coastal route to the old lighthouse in Marken. If it gets too hot or you feel like time off the bike, you can even go for a swim!

We will return to Amsterdam by taking a scenic country side route through farmland and along small canals. Our guide will take you on off road local paths through scenic nature...all of this only kilometers' from Amsterdam!
