Bookings Essential

Fitness Level: 🍊

Visit popular villages and cycle along rivers, canals, lakes and through the local farmland. Cross the river the local way by a pulley boat. Yes, this means there's no engine and you have to pull the boat across yourself BUT don't worry, it's an excellent system where you won't be working too hard...!

You will cycle past windmills and see where Rembrandt was inspired and made many of his paintings. Visit places such as Botshol (nature area), Vinkeveense Plassen (a popular water recreation area), Abcoude (known as little Venice) and Ouderkerk (a quaint local village on the water).

Join us and see old churches, old forts and an abundance of birdlife. Go off track where most tourists don't go!
